

### **Journal Article of Year Awards for 2003**

The Editor requested *JIAEE* Board Members to review all articles published in Volume 10 (2003) and nominate articles for the second annual **Article of the Year Award**. The nomination period occurred throughout April 2004. Criteria for article selection and nomination were the article's capacity for "enhancing the *research* and *knowledge base* of agricultural and extension education worldwide..." Six truly outstanding papers were nominated.

The current editor asked an independent panel made up of associate editors, the past editor, and selected AIAEE leadership team members to review and rank the overall excellence of each article. Following are the results of this evaluation to promote the scholarship and recognition of authors who contribute to enhancing the *research* and *knowledge base* of agricultural and extension education worldwide.

Congratulations to all the authors on their scholarly achievements. Please take a moment to send your congratulations to these authors for their achievements and for helping all AIAEE members achieve prominence in the research publication process.
